

July 14, ACAAM Addiction Medicine Fellowship Training Town Hall – ACGME Site Visits

Chat File...

14:06:22 From Anita Karnik MD : RE membership: I agree so important. Our struggle is working to get it part of the budget plan which was made some time back so sending official messages on why we need this, should be required. Thank you for all you do.

14:08:39 From Tildabeth Doscher : is the updated block diagram to be for the recent graduate or the current Fellows?

14:09:06 From Linda Neville-Boston Medical Center : our site visitor wanted teh current academic year

14:09:08 From Marty Wunsch MD : If you are having difficulty bringing your GME into agreement about membership, please reach out to the ACAAM office. Our staff can provide talking points. Furthermore as a founder of this board and current president I can speak as needed with GME office about the importance of membership for content of your program

14:09:16 From Krisanna Deppen-OhioHealth : I think (our experience) is that wanted the most recent block diagram (current)

14:09:25 From Valerie Carrejo : The updated block diagram should be for what the current fellow is doing. The catch is that if this is your first site visit, you also need to explain changes

14:09:50 From Anita Karnik MD : We needed to give our current block diagram and we also had to explain all changes

14:10:03 From Tildabeth Doscher : If our current is different than the prior, do we submit both?

14:12:39 From Emily Koritz, SVCMC : You can actually add more PDF pages to the block diagram to make the block diagram and the actual rotations and/or schedule jive. The ACGME-provided template by itself seems insufficient.

14:14:17 From Anita Karnik MD : @Tildabeth Doscher we submitted current one and ACGME at visit had all of the ones from previous Webads annual updates

14:14:24 From Emily Koritz, SVCMC : We did a SWOT analysis after the site visit for our file, for next time.

14:14:47 From Anita Karnik MD : I was surprised our site visitor had everything from original application, each update paperwork, and the final packet

14:17:23 From Dan LeVine : Our site visitor asked for no more than 6 faculty total

14:17:33 From laura levine : ours asked for 3-4

14:17:34 From Anita Karnik MD : Andy, yes we were told by other programs to do that have someone even if not core avail

14:17:43 From Anita Karnik MD : and that is what our visitor wanted

14:18:04 From VHAHINRamicA : our visit is next Monday, we met with Surveyors and he told us 5 faculty, he was not specific about it

14:19:08 From Linda Neville-Boston Medical Center : we had 4 key faculty (we were allowed 6 max), only one from an outside rotation site.

14:19:58 From Valerie Carrejo- New Mexico : Citations are opportunity for improvement. That is the way that I am looking at it now :)

14:20:19 From Todd Korthuis : Our GME office was tremendously helpful with visit prep. We met weekly with them for 2 months prior to the visit to review documents, etc. It was all about process and policy documentation. They also joined our faculty and fellow pre-meetings.

14:21:29 From Linda Neville-Boston Medical Center : @Todd agree we did the same and the pre-meeting were helpful

14:22:06 From Emily Koritz, SVCMC : Linda's forms were so helpful.

14:31:53 From Tildabeth Doscher : Can we request Sheryl's site visitor, please?

14:37:56 From Christian Eriksen : If anybody got feedback that they had a fabulous block diagram, would you be willing to share?

14:38:36 From Emily Koritz, SVCMC : If a question didn't apply, I made up a document stating that it didn't apply (we have had no fellows leaving the program, for example)

14:39:55 From Denise Lesniak - Emergency Medicine : Even though there are variables with the a site visit, prepared programs have a positive experience.

14:40:19 From Linda Neville-Boston Medical Center : Willing to share ours- I will send to Andy to post. She didnt say it was fabulous, but only said we could make one minor edit for the ADs update.

14:44:51 From Anita Karnik MD : Our site visitor told us we will hear nothing till about Nov

14:50:55 From Krisanna Deppen-OhioHealth : Todd & Sheryl...I would love to request your site visitor (I will ask my DIO if I can send a Christmas card) :)

14:52:28 From Emily Koritz, SVCMC : Are you recording the ACAAM curriculum program for members of ACAAM?

14:54:00 From Kaylee Burget : Off topic question- Do we have a common program date for offers with interviews starting in the near future

14:54:31 From Valerie Carrejo- New Mexico : There is an email out with a deadline TODAY with a vote on the common offer date.

14:59:07 From Lara Carson Weinstein : is there a way to pay extra to have a rotating group of 3-4 students/session?
